DOUBLE TRACKS

Hawaiian Tramways Company Sur-
prises the Public.

COMMENCEMENT AT KING STREET

Company Will Run Double Track
Horse Car Lines Until electri-
city is Put in.

At last the Hawaiian Tramways
Company has made a move in the di-
rection of improving its present tram
service, and the move came suddenly
and unheralded. In fact, few people
were aware last night that it had been
made.

Yesterday afternoon the Hawaiian
Tramways Company began the work
preparatory to paralleling the lines al-
ready controlled by them. King street,
between Bethel and Nuuanu, was se-
lected as the point for beginning op-
erations. Quite a gang of laborers was
at work, and before the afternoon was
over the street was torn up for nearly
half a block.

"It is the intention of the company,"
said Manager Pain last night, "to go
right ahead and lay the double track
on every street covered by our fran-
chise. This is in accordance with the
recent decision of the Government
based on an opinion given by Attorney
General Cooper, in which it was held
that the Tramways Company had the
right, according to their franchise, to
parallel its own lines. Both tracks
will be used by the horse cars up to
the time of starting the company's pro-
posed electric service."

All yesterday afternoon numbers
of curious people watched the operation
of digging up the macadam of the King
street roadway, the commencement be-
ing made opposite Castle & Cooke's,
and the men working towards the
Nuuanu stream. Most people thought
that a new switch was to be put in;
others that a temporary track was be-
ing laid down.

This move on the part of the com-
pany has probably been determined on
since the application of the Rapid
Transit Company for the right to put
down an electric line from Thomas
Square to the King street bridge met
with a favorable response from the
majority of the property-owners along
both sides of the street and from the
Executive Council. Whatever may be
the result of this first move on the
tramway chessboard, the long-suffering
public will at least rejoice that a be-
ginning has been made in the right di-
rection.

THE NEW TREATIES.

Have Already Gone Into Effect in
Japan

The new international treaties about
which so much has been said and
written in the last two years, went in-
to effect in Japan on Monday, July
17th. Writing of the event, the Japan
Daily Herald says:

"Today is the day we have all been
looking forward to since treaty re-
vision became an accomplished fact,
for today the new treaties come into op-
eration. However, as far as Consular
jurisdiction is concerned the Germans,
French and Austrians will retain their
own till August 4th. Up till now only
the American Minister, Colonel Buck,
has informed his fellow-citizens re-
sident in Japan of this important
change, while persons of other nation-
ality seem to be still in the dark as to
whether they are now under control
of their own authorities, or whether
they are amenable solely to Japanese
authorities and laws. Rather a curious
state of affairs.

"On August 4th, when all the new
treaties came into operation, a grand
banquet will be held at the Recreation
ground, Yokohama, attended by a
number of both foreigners and Japane-
se.

"Another banquet will be held at
the Imperial Hotel on the following
day, for which some 500 invitations
have been already distributed among
Japanese and foreigners."

Monthly Stock Report.

The monthly report for July on the
Honolulu Stock Exchange shows con-
siderable activity in bonds. Of Ha-
waiian Government there were sales
amounting to \$19,000, and \$7,000 worth
of O. R. & L. McBryde heads the list
of the sugar stocks with total trans-
fers of 7,731 shares at prices varying
from \$5 to \$2.50. Kihel showed great-
est fluctuations with 2,930 shares sold
at from \$11.33 1/4 to \$6.75. Honolulu
held firm with 1,308 shares sold at from
\$26.50 to \$26. There was more or less
movement in Ewa, which shows 1,297
shares sold at prices ranging from
\$20.50 to \$27.50.

HILO RAILROAD IS ALL RIGHT

Carshops, Round Houses, and Found-
ry for the Rainy City—Rails
Should Arrive this Month.

Referring to a rumor current in Hilo
last week to the effect that the Hilo
Railway Company had abandoned its
railroad project and its engineers had
been ordered out of the field, Mr. B. F.
Dillingham said yesterday to an Ad-
vertiser man who questioned him:

"The ink was hardly dry after the
signing of our charter before an order
went on for the necessary rails. Iron is
iron these days and gold, too, for that
matter," and here the railroad mag-
nate heaved a sigh. "The rolling
mills are as independent as a man with
a big block of Oahu stock, and we have
got to get our orders in early if we
want the goods. But to answer your
questions. You can tell those Hilo peo-
ple who doubt whether the Hilo Rail-
road Company means business and is
able to fill its contracts that the first
shipment of rails for the road to Olan
ought to reach Hilo by the next ves-
sel, due there in the Matsun line. I
forget the name—the one that is due
there in August—and the balance will
follow as fast as Captain Matsun can
rush them through. About locomotives?
Go and ask Wm. G. Irwin & Co. about
them. They are agents of the Baldwin
Locomotive Works, and they will tell
you that our order for two of their best
locomotives was placed some time ago
and that the latest information to hand
is that they should arrive in September."

"About the rolling stock, Mr. Dil-
lingham?" ventured the reporter.

"You newspaper men are never sat-
isfied," was the reply. "You can tell
the people of Hilo through the Adver-
tiser, if you want to, that the Hilo
Railroad Company is going to build
car shops, a round-house and foundry
and machine shop at the Hilo termi-
nus, and when I say going to build
them I don't mean next year or some
time in the future, but right now. We
intend to have the round-house ready
before the locomotives get to Hilo. You
can tell the Hilo people that every
freight car and every passenger car,
too, used on the road is going to be
built right in Hilo, and we are going
to start right away. Mr. Hughes, the
foreman of our car-shop here, has just
completed a lot of cars for the Oahu
Railway & Land Co. He is to have a
vacation and go to the Coast, where
he will purchase all the lumber and
other materials necessary for building
freight and passenger cars, which will
be shipped to Hilo. As soon as the
material reaches that city Mr. Hughes
will be on hand to receive it and will
at once superintend the construction of
the necessary shops."

"It is reported, Mr. Dillingham,"
said the reporter, "that you have re-
cently disposed of a big lot of Hilo
railway bonds."

"Who told you that?" was the
answer. "Well, it's true, anyhow. Yes;
we have sold several hundred thousand
dollars' worth, and we could sell more.
The bonds are in demand and we don't
have to look for purchasers. You see
it's just this: the Hilo road is going
to be run exactly on the same lines as
the Oahu road. Knowing that, the peo-
ple who have made money in the Oahu
bonds and stock realize that the Hilo
road will, in time, be equally as good.
Why, the Hilo railroad has a forty
years' contract with the Olan plan-
tation which alone will bring in money
enough to pay the interest on the
bonds, and the country traversed by
the road is bound to build up just as
it did along the Oahu line. There is
no reason why the Hilo railroad stock
should not become equally as good an
investment as the Oahu line. And
while I am about it, you can just tell
the people in Hilo and Honolulu both
know that the Olan plantation is going
ahead just the same whether the stock
is quoted at \$200 a share or two cents.
If people give away the stock at pre-
sent prices it's not my fault, and they
will remember that fact some of these
days."

Exports for July.

The total value of exports shipped
from Honolulu during July was \$1,
367,215. The greater portion of this is
represented by over 250,000 bags of

CHURCH MATTERS

Remarks on a Recent Article in
the Diocesan Magazine.

PAST UTTERANCES RECALLED

Anglican Church in Hawaii
Favors Amalgamation With the
Church of America.

To the Editor of the Pacific Commer-
cial Advertiser.

Dear Sir:—Will you kindly permit
me through your columns to remark
upon an article which has appeared in
the July issue of the Diocesan Maga-
zine, under the head of "The See of
Honolulu—Its Foundation, and the Ob-
ligation to Maintain It."

We consider it of great importance
to the Church that the merits of this
article should be discussed, coming as
it does, from the Bishop of the Diocese.

As it is written, we take it, to hinder
the transfer of the Anglican Mission in
Hawaii to the Church in America, and
it undertakes to show that such trans-
fer cannot be effected unless the two
following conditions are complied
with: First, that the American Church
assume all financial obligations now
resting on the Church of England for
the support of the Church in these
islands; secondly, that the American
Church undertake to maintain and
perpetuate the See of Honolulu in its
integrity. It contends that the An-
glican Church here is not, and should
not, in any way be disturbed in its
relations to the English Church or
Church Societies by any political
changes in the country; and intimates
that, should things so shape them-
selves that the Church in England
should think it proper to transfer the
jurisdiction of the Mission to the
Church in America, the Bishop would
resist such transfer until he be as-
sured of the conditions, as above, being
complied with—and the article ends,
"If it is suggested that the present
Bishop lay down as pastoral staff,
with the knowledge that no successor
will be consecrated to take it up, the
suggestion is one which cannot be en-
tertained for a moment. The transfer
of jurisdiction will convey to the
American Church a solemn obligation
to discharge all the responsibilities
and obligations now resting on the
Church of England with regard to this
See. Foremost among those responsi-
bilities is to maintain and perpetuate
it."

Now this Association is composed
largely of reasonable people who view
things in a practical way. Personally,
we are distinctly in favor of amalga-
mation with the American Church on less
onerous terms; but the question is,
laying sentiment entirely on one side,
how far may these conditions, as laid
down by the Bishop, be considered ob-
ligations? What is the true value of
his contention?

The Bishop says that the transfer
of jurisdiction to the American Church
carries with it the obligation on that
Church to assume the full financial
responsibilities heretofore resting on
the Church Societies in England, for
the support of this Church. We do not
consider that any obligation has rested
on the Church Societies, of late years,
to continue their grants. These grants
are purely voluntary—whatever moral
obligations might have rested on them
for the first few years of the existence
of this Mission, it is quite clear such
obligations could not continue for ever,
and we think thirty-seven years sup-
port of a Mission in such a country as
this should absolve them from further
claims. Even now the Society for the
Propagation of the Gospel has signified
its intention of withdrawing its grant.
In any case we think the amount of the grant claimed is unreason-
ably large, in view of the feeble
state of the Diocese. This Church has
for many years received something
like \$5,000.00 per annum from England.
Is so much required? The Church in
the city of Honolulu should be re-
garded as self-supporting, inasmuch as
there are now two clergymen doing
duty here, who receive no aid from
Missionary funds. Outside of Honolu-
lu there are but three parishes or
missions, with clergy in charge,
throughout the whole Diocese (Mr.
Davis of Kona having lately resigned)
ministering to average congregations
of from ten to forty persons, and one
Chinese chapel, served by a Chinese
priest, all of whom receive partial
support from their people. It is clear
no large grant is necessary. The
American Church would never consent
to so large a grant, nor is it reasonable
to ask it.

Change at the Barracks.
Company I of the United States bat-
tery, which has for several months
past held possession of the barracks,
leaves this morning for Waikiki, their
place being taken by Company A. The
departure of Captain Slater and Lieut-
enant Hancock from the city limits
will be missed, as well as the going of
the well-behaved men under their com-
mand.

Missionary Work.

Theodore Richards, who resigned
from the principality of the Kame-
hameha schools to take up missionary
work, is touring Hawaii, holding meet-
ings and giving concerts for the bene-
fit of various churches.

Hawaii Plantations

Pineapple plantation finished grind-
ing on Tuesday last with an output
of 7,500 tons of sugar. Hakala closed
down on Monday last with a total of
9,000 tons. Olanua expects to finish
in about a week's time.—Hilo Tribune.

At the close of our last Synod in

1891 I looked forward to the assembling
of this fourth Synod about May
in the present year. But when, on
January 17th, constitutional govern-
ment, under which this little kingdom
has long enjoyed peace and prosperity,
was overthrown . . . "the fu-
ture of the Anglican Church in Hawaii
hung in the balance, together with the
political future of the islands. Had the
Government at Washington accepted
the offers of the commissioners sent by
the Provisional Government" . . .
"and annexation had taken place, we
could not have held another Synod un-
der our present constitution on Ameri-
can soil. An entire reorganization un-
der the constitution of the American
Church would have been necessary."

Since our constitution remains un-
changed, and we are now on American
soil, on the Bishop's own showing, the
political changes render an entire re-
organization in order and necessary be-
fore another lawful Synod can be con-
vened.

We are inclined to think that no rea-
son exists why our Church relations
with England must be disturbed be-
cause of annexation, if all persons con-
cerned wish them to be preserved, but
we argue, too, that there is no reason
why such relations should not alto-
gether cease at any time, if either the
Church in England, or that in Hawaii
desire it, and see it to be for the gen-
eral good. We use the word "Church"
as defined in Article XIX, in the Ar-
ticles of Religion. And the Church in
Hawaii now feels that the ends of re-
ligion would be better served, and her
usefulness promoted, by her transfer to
the Church in America on such terms
as the ecclesiastical authorities in En-
gland and America, knowing the posi-
tion of our Church, may consider right.

The Bishop lays down as a "sine qua
non" that the See of Honolulu be main-
tained and perpetuated in its integrity.
Interregnum is sometimes unavoid-
able. A resident Bishop is no doubt
most desirable, but until we are much
stronger we do not feel that the Ameri-
can Church would be under any obliga-
tion to support one here. We could
be joined to one of their existing mis-
sionary jurisdictions, and share with
it the Episcopal duties of its Chief.
We do not resign forever the hope of
a resident Bishop; it is but deferred
until the Church with which we are
connected feels justified and sees fit to
appoint one, which will be, no doubt,
as soon as one is required.

His Lordship lays much stress upon
the "wrong that would be done to the
whole Anglican communion if the Ha-
waiian islands should cease to be a
seat of the Anglican Episcopate." "Such
a course," he says, "would be
unjust to the memory of its founders,"
for so convinced were they that Honolu-
lu was created a See of the Anglican
Communion in perpetuity, that when
King Kamehameha IV. died money
was subscribed in England for a cathe-
dral "to be built in his memory on
the site which the King had deeded to
the Anglican Church."

We do not think, under the circum-
stances, any such claim can be consid-
ered. As a matter of fact, the King did
not deed this land to the Anglican
Church. His gift for the cathedral site
was deeded to the "Synod of the Ha-
waiian Reformed Catholic Church,
their successors and assigns." And
very wisely, too, for although it may
not be generally known now, the
founders knew that this Mission was
not planted exclusively an Anglican
Mission, but a joint Mission of the
Churches in England and America, as
we shall show. Moreover, as early as
1854, in the time of Kamehameha III.,
the political outlook and the destina-
tion of these islands were very uncer-
tain, and owing to the peculiar circum-
stances of the period, their annexation
to the United States was the eagerly
sought both by the King and
many white residents as it has been
since. (Prof. Alexander's History of
Hawaii.)

In view, probably, of both these
facts, the King and Bishop Stanley wis-
ely had this property deeded to the lo-
cal Church, in order that it might pass
either East or West, with the country
itself, as time should determine, and
that it might not be hampered by the
claims of any other Church. Hawaii
had appealed to the United States for
the Church before she approached
England; her interests lay in America,
and it was only the weakness of the
Church in that country at the time
that prevented the American Church
being planted here. However, a joint
Mission was finally decided upon, as
will be seen from a letter from Bishop
Kip of California to the editor of the
"Pacific Churchman," under date of
September 21, 1853, in which he says:

"Previous to 1850 I had received re-
peated applications from the islands to
send a clergyman of our Church. The
late Hon. W. C. Wyllie, Minister of
Foreign Relations, several times wrote
to me on the subject. Unfortunately,
we had no clergy to spare, there not
being half enough for the work of our
own Diocese. I applied to members
both of the Domestic and Foreign Com-
mittees in New York, but received no
encouragement." . . . "In the sum-
mer of 1850 I went to England. Dur-
ing the previous spring Mr. Wyllie
(knowing my intention) again wrote to
me, by direction of the late King, re-
questing me to make an arrangement
for him in England, to which Church
he had already, I believe, applied. A
number of letters on the subject
passed, mine being submitted to the
King, and the answers dictated by him
to Mr. Wyllie. Hoping of obtaining
any clergy from our own country to
establish the Church in Hawaii, I
sawed to further that object in En-
gland. Accordingly, when in London,
in July, 1850, I brought the matter be-
fore the Bishop of Oxford and London,
both of whom entered heartily into it.
I particularly mentioned the existing
(Continued on Page Four)

FOUR DAYS LATER

Interesting Telegrams From the Outside World.

PRINCE HENRY REACHES KOBE

Boers Casting Dynamite Guns at Johannesburg—Official Account of the Czarevitch's Death.

By the arrival of the Hongkong Maru last evening the Advertiser is enabled to give its readers four days' later news of the outside world. The principal happenings will be found below under appropriate headings:

NEW TRANSVAAL PROPOSALS.

YOKOHAMA, July 15.—The new proposals offered by the Transvaal are most complex, concessions being hedged round with elaborate limitations.

The Times describes the new proposals as a mockery, the Daily Telegraph as rigmorale and inconsistencies, and the Daily Chronicle as curiously complicated.

THE TRANSVAAL QUESTION.

SHANGHAI, July 14.—The Volksraad, in debating upon the new franchise law, passed the preamble thereto.

The Cape Town branch of the Afrikaner Bond has approved the new proposals and also the scheme for arbitration by judicial experts of differences about the convention.

CANADA AND SOUTH AFRICA.

SHANGHAI, July 17.—The question as to offering Canadian troops to South Africa was raised in the Dominion House of Commons. Sir Wilfrid Laurier, Premier, speaking on this subject, hoped that the Transvaal would submit without resorting to hostilities.

ENGINEERS FOR THE CAPE.

SHANGHAI, July 17.—Fifteen officers and 213 engineers of the Army Service Corps sailed for the Cape on Saturday.

BOERS PREPARING FOR WAR.

YOKOHAMA, July 17.—A local outcry at Johannesburg is casting dynamite mortars.

SIR A. MILNER'S SPEECH.

YOKOHAMA, July 17.—Sir Alfred Milner, in a speech opening the Cape Parliament, merely said that relations with the different states and colonies were friendly.

RUSHING A BRITISH CAMP.

SIMLA, July 16.—The following has reached here by letter under date of May 28th:

"A body of Chins to the number of about 200 attempted to rush the British camp at Hattier, in Burma, on the morning of the 23d of May. Being discovered by a sentry, they fired a few shots, but, on having a volley fired at them, they retired, leaving one dead. They next attacked the Gorkha settlement, and killed three persons. Captain Sillery, commandant of the Chin hills, pursued the band from Falan and over took them, killing six and capturing three, the remainder holding with the wounded. The Chins, being surprised, made no resistance. Rumkiao and the outlying Kiang-kang villagers were the offenders. There were no casualties on the British side."

They next attacked the Gorkha settlement, and killed three persons. Captain Sillery, commandant of the Chin hills, pursued the band from Falan and over took them, killing six and capturing three, the remainder holding with the wounded. The Chins, being surprised, made no resistance. Rumkiao and the outlying Kiang-kang villagers were the offenders. There were no casualties on the British side."

BRITISH CRUISER ASHORE.

YOKOHAMA, July 14.—From a private letter dated July 10th it is learned that the British cruiser Bonaventure has gone on the rocks in the vicinity of Korniloff bay. The entire squadron had been trying for three days to get her off, but finding all efforts unsuccessful, the Admiral dispatched the cruiser Iphigonia to Vladivostok for assistance. The summer cruise of the squadron has for the present been abandoned.

THE FRENCH NATIONAL FETE.

SAIGON, July 16.—The review at Longchamps (i. e. the annual review held on the day of the national fete in the presence of the President of the Republic) was very brilliant. President Loubet was warmly cheered and the crowd accorded an ovation to the mission of Major Marchand and his detachment of Roumdouze troops. The French National Fete was celebrated everywhere with enthusiasm.

VOLCANIC ERUPTION.

YOKOHAMA, July 12.—The volcano Asama in Shinano province burst into eruption on the evening of the 10th inst.

PRINCE HENRY.

KOBE, July 16.—The German warships arrived here last night from Yokohama with Prince Henry on board.

Owing to the death of the Tsarevich, his Highness will be unable to attend the various festivities which were being arranged in his honor. An exception is made in the case of the dinner at the German Club, but this will not be of an official character, and there will be no music and no speeches. The "Venetian Night," as well as the picnic at Suma, have been abandoned, and through the Consul the Prince has expressed his deep regret to the German community at not being able to attend any festivities.

THE CZAREVITCH.

SHANGHAI, July 17.—The official account states that the late Czarevitch died from hemorrhage of the lungs, while on a solitary ride on a motorcycle. Only a peasant woman attended his last moments.

FRANCHISE PROPOSALS.

YOKOHAMA, July 17.—The Afrikaner Bond, holding meetings at the Cape, are approving the franchise proposals.

LAVA FLOWS STOP

Pele Has Allowed Her Fires to Go Out.

Hawaii Shaken by Earthquakes Which Have Done No Damage. Kilauea Is Still Quiescent.

Passengers by the Mauna Loa report that the recent volcanic outbreak has ceased and the lava flows stopped.

The cessation of the flow occurred almost as suddenly as the outbreak. Those who took their last glance at Mauna Loa's stream of fire on the evening of the 23d inst., were astonished to find on the next morning that all was quiet. The eruption had ceased. During the day the whole island of Hawaii was shaken with earthquakes of various degrees. None were very heavy and no damage was done. Many of the old Kamaainas say that these disturbances are sure signs that Madame Pele is taking a short rest only to break forth with redoubled energy in a few days.

There have been no signs of activity in Kilauea further than those already reported.

Writing from Punaluu, the Advertiser's special correspondent says:

"On Monday about lunch-time Hawaii had a heavy earthquake. It was most severe at Hilo and vicinity, and very light here. We have not seen any reflection from the volcano since the smoke that enveloped the island for several days disappeared. According to all accounts the fire has ended and the lava flows have ceased. We are expecting a party from the scene of the eruption almost hourly, but it will be too late to reach you by this mail."

Telephone messages from the Volcano House to Captain Simerson of the Mauna Loa state that the flow must have ceased on Sunday night or Monday morning, and numerous private letters received here yesterday are to the same effect.

Money Appropriated.

The trustees of Oahu College have appropriated the funds necessary for the construction of a building and stone pier on which the seismograph recently described in these columns, is to be set up. The Survey Department will furnish a man to look after it.

CONDENSED ITEMS.

An outbreak of cholera is reported from Kanagawa, Miyazaki and other places.

SAGA, July 16.—A case of cholera occurred here today.

The Kokumin says the Russo-Chinese bank will shortly establish an agency at Moji.

From the beginning of the year up to July 15th, 642 cases of dysentery were reported in Kanagawa prefecture. Of these 104 have died, 165 recovered and 373 are under treatment.

Owing to the outbreak of dysentery in different parts of the country provisional quarantine stations have been established in Tokyo, Kanagawa, Nagasaki and twenty other prefectures.

On Wednesday morning Mr. Beveridge of the United States Senate and his wife and Professor Edward Divers, who shortly goes home, were received in audience by the Emperor and Empress.

The British government, according to the Shanghai Mercury, demands the dismissal and degradation of the governor of Kwetchow for his laxity in regard to the Fleming murder enquiry.

Up to the present none of the murderers have been punished while it is common knowledge that they are living openly close by the scene of the murder.

According to a reliable report from Peshawar, a General named Abdul Hakim Khan, and two or three clerks of the army pay department office at Calcutta were recently blown from guns on the plain facing the infantry barracks at Calcutta, in the presence of a large concourse of army officers and soldiers. The charge against the executed men was that they had, for some years past, been in the habit of cheating both officers and men of portions of their salaries. This particular form of punishment has very rarely been resorted to of late years at Calcutta, and the execution of these men created something of a sensation.

POWERFUL LIGHT

At the Diamond Head Light House.

Fifteen Hundred Candle Power Out of Three Quarters of a Gallon of Kerosene.

The new lighthouse at Diamond Head is admirably serving the purposes for which it was erected. Everything is running as smoothly as could be desired, and every night the new beacon shines out as a guide for mariners. The light is furnished by the Washington lamp and is of 1,500 candle-power. A person standing in close proximity to the lighthouse at night-time would not realize that the beacon had any such power. But some distance out to sea an idea of the light's full strength is gained. A few nights ago the light was observed twenty-two miles away by one of the inter-island captains. That fact will give an idea of its intensity.

The plant is arranged with a duplicate system. There are two separate vaporizers, two separate valves, everything is duplicated. This is in case something should happen to the light that is burning. The mechanism is so perfect and yet so simple that in a little less than a minute and a quarter after the first light went out the second would be burning. This was learned by actual test a few nights ago.

The disc is three feet in diameter and five feet high and is made up of various prisms. Through one of these a sector of red light is thrown whose ray strikes the water a quarter of a mile beyond the bell buoy.

It takes just three-quarters of a gallon of kerosene to run this powerful light eleven hours, or an actual cost of about 25 cents a night.

The quarters of Captain Christian, the keeper, are easily fitted up with everything that goes to lessen the tedium of the position.

A YOKOHAMA HORROR.

Young American and Two Japanese Women Murdered.

A terrible triple murder was committed at a Yokohama saloon early on the morning of the 17th inst., the victims being a young American, rather unfavorably known in the Settlement as Nelson Ward, and two young Japanese women, named respectively Tokura Suze, aged 24, and Suzuki Aki, aged 19. An American named R. Miller has been arrested on suspicion. The saloon in question was kept by Suze herself, and Suzuki was one of the maid-servants. The crime was first discovered by a third maid-servant, named Tanaka Tomi, who had been absent during the night, but who returned at about 7 o'clock in the morning, when, to her horror, she found the body of young Ward lying in a pool of blood, on his left side, near a sofa in a room opening out of the bar. The blood had issued from a frightful wound in the throat, evidently inflicted with a knife or some sharp cutting instrument. Her suspicions being roused by this awful discovery, as to the possible fate of her mistress, she hurried upstairs, where, on entering the latter's bedroom, her fears were verified by the sickening spectacle of Suze lying dead on the bed, which was a foreign one, from the effects of a gaping wound behind the left ear, while in the adjoining room Suzuki also lay dead on a Japanese futon, as the result of a wound inflicted in the same spot—behind the ear. Not content with simply killing the unfortunate women, the perpetrator of the crime had actually severed one of Suze's ears from her head, and the member was seen lying on the floor near the bed. The maid-servant at once informed the momban of her discovery, and he in his turn lost no time in notifying the police, who were quickly on the spot in force, and took possession of the premises.

Miller, the man arrested on suspicion, is said to be an American of Irish extraction belonging to Buffalo, New York. He went to Japan on the ship Tam O'Shanter, from which he deserted. He was seen in the neighborhood about the time of the tragedy and had frequented the place before. When arrested his face was badly scratched up. It was rumored that he had made a confession to the authorities implicating an accomplice. The Public Prosecutor was to enter a charge of premeditated murder against him.

RUSSIAN DEMANDS.

PEKING, July 16.—The Tsungli Yamen seems to be inclined to permit the Russian demand for extending a railway to Peking.

IT SAVES THE CHILDREN.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and — was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy. — C. L. HOGES, Stumptown, Gilmer Co., W. Va. For sale by Benson, Smith & Co., Wholesale Agents for H. I., and all druggists and dealers.

Nervous Debility

is often one of the most distressing after-effects of the Grip. It may also be caused by overwork, worry, mental strain or excesses of almost any nature. Whatever the cause, a debilitated nervous system means that the nerves lack nutrition. Feed the nerves and life will renew its joys for you.

The best nerve food, and the most valuable tonic (because it both builds up the blood and strengthens the nerves) is Dr. Williams' Pink Pills for Pale People. Hundreds of worn-out, depressed men and women have been made strong-nerved, ambitious, energetic and healthful by this remedy.

Among the well-known men of the newspaper profession is F. J. Lawrence, of 435 Fourth Avenue, Detroit, Mich., who for the past seven years has been at his desk every day. He says: "At one time I was in such a condition that my physician said I would have nervous prostration; that I would have to stop newspaper work or I would go to pieces if I persisted in doing it, as I was destroying what nerve force I had left. I lost flesh and had a complication of ailments which baffled skillful physicians. An associate recommended Dr. Williams' Pink Pills for Pale People and I gave them a trial. I can't say that I received any benefit from the first box, but derived very good results from the second. They gave me strength and helped my shattered nerves so that I could get a full night's rest. "A great deal of pain in the small of the back I attributed to a derangement of the kidneys. For this complaint Dr. Williams' Pink Pills for Pale People worked wonders. Soon after I began taking them regularly, the pain ceased, and I felt like a new man. "I am greatly encouraged from the results of using a few boxes and am confident that the pills will work a complete restoration of my former condition."—From Evening News, Detroit, Mich.

Sold by all druggists or sent, postpaid, by the Dr. Williams Medicine Co., Schenectady, N.Y., on receipt of price, 50 cents per box, 6 boxes, \$2.50

THE SETTLEMENT

Scenes at the Annual Visit of the Board of Health.

MOLOKAI LEPROS WELL TREATED

Baldwin and Bishop Homes Visited—Brother Dutton's Noble Work—Prizes for Tree Planting.

At an early hour Saturday morning the steamer W. G. Hall cast anchor on the Molokai coast and a number of her passengers looked for the first time upon Kalaupapa, one of the villages of the far-famed leper settlement. The vessel brought, besides members of the Board of Health and their guests, about a hundred who had received permits to visit afflicted relatives in the colony. Their coming was expected. A large company had assembled to welcome them. The steamer's boats were soon lowered, and to the music of the Kalaupapa brass band the strong-armed rowers pulled for the rocky shore. The landing was made without difficulty. The permits, without which no one is permitted to visit the Settlement, were received by the proper officer, and soon those who had come to see relatives were reunited with them—for a day.

The village, with its white cottages, looked clean and bright in the morning sunshine, and the inhabitants not at all like a company of invalids. There were many who showed no outward trace of disease.

It was a pleasure to note how much is being done by self-sacrificing people, as well as by the Government, through the Board of Health, for these afflicted people. The Bishop Home for Girls, under the charge of Mother Marianne and assistants of the Franciscan Sisterhood, now has one hundred and twenty-four inmates, seventy-four girls and fifty women, some of whom have been inmates since their girlhood. It consists of numerous cottages in well-kept grounds, and here the visitors were entertained by music, a number of selections being played on the piano by one of the girls.

After a luncheon at the Board of Health cottage the party took horses and went over to Kalaupapa, on the other side of the peninsula, where is located the Baldwin Home for Boys, under charge of Brother Dutton, known to almost everyone on the islands as a noble Christian man who, thirteen years ago, went there to devote his life to the welfare of the unfortunate lepers. The Home consists of cottages built facing a square in a sheltered spot. The ground, originally covered with stones, has been cleared up and planted with grass, shrubs and flowers, and is now a very attractive place. The Home at present shelters one hundred and twenty-five men and boys. Brother Dutton is a believer in useful occupation for the body and mind. Under his direction and by his example those who are able work in beautifying and cultivating the grounds. The garden is a model one, and its produce adds much to the comfort of those in the Home. Instruction is given from time to time in the school. Brother Dutton tries to have every member of his afflicted family able to read and write, but at the same time not to weary them by too much instruction.

An organized band in uniform is a feature of the Home, and played for some time for the visitors, and it was evident that they enjoyed the performance, while giving pleasure to their guests.

The saddest event of the day was witnessing the parting between the afflicted and their friends. Many were the sad farewells at the landing. The warmth of human affection overcame the fear of disease in that hour when they were to part, perhaps never to meet again on earth, and there were tender kisses and embraces for those so soon to be left behind, while the unutterable pathetic sound of the parting cries filled the air. Still, it must have been consoling to friends to know that the wants of their dear ones were and would continue to be so well provided for, and that although science has as yet discovered no cure for the malady, much can be, and is being done, to alleviate the affliction.

Just before leaving, Mr. W. O. Smith announced that the newspapers of Honolulu would give five prizes for success in tree-culture. The first prize is to be \$50, the second \$40, the third \$30, the fourth \$20, and the fifth \$10. These prizes are to be awarded October 1, 1900, and competition is open to all the inhabitants of the Settlement. Mr. Smith also offered five prizes for the best-kept grounds, to be awarded April 1, 1900. For the best-kept and neatest grounds the first prize is to be \$25, the second \$20, the third \$15, the fourth \$10, and the fifth \$5. Like the prizes for success in tree-culture, these are open to all the inhabitants of the colony. The committee to award the prizes consists of W. O. Smith and Charles B. Reynolds of Honolulu and William Notley of Kalaupapa.

During the past year the water supply for the Settlement has been so much increased by laying of larger mains that it is now sufficient for irrigation, and there are well-founded hopes that great success may now be reached in the growing of trees, which has hitherto been difficult on account of the lack of water.

The passage home was a speedy and very pleasant one. At a few minutes past 4 o'clock the vessel sailed, and by 9 p. m. the passengers were ashore

in Honolulu. The homeward trip was enlivened by many Hawaiian songs from the native passengers.

D. H. Hitchcock III.

D. H. Hitchcock, who has been visiting Hookens, in Kona, for the purpose of recuperating his health, was seized with a severe attack of asthma, and became so ill that the steamer Hawaii was sent to bring him home on Thursday evening. He arrived about 11 o'clock on Thursday evening. He is at present more comfortable, and with good medical care will soon, it is believed, be restored to his usual health.—Hilo Tribune.

Accounts Approved.

Judge Perry has approved the accounts of Godfrey Brown, John Maguire and T. R. Walker, trustees of the estate of James Woods, who charged themselves with receipts aggregating \$11,892.66 and asked to be allowed the sum of \$12,956.68, showing a balance due them of \$1,064.02. The accounts show that the estate owed the trustees the sum of \$18,015.00 on December 31, 1897, and \$19,079.02 on December 31, 1898.

FROM THE CRATER

Lava Flow Has Stopped for the Present.

Surveyor Baldwin Reports That the Eruption Has Ceased—McCandless Party Found No Lava.

Reports by the Kinau yesterday confirm those received early last week to the effect that the recent eruption on the slopes of Mokuawewe had ceased.

Surveyor E. D. Baldwin and his brother C. W. Baldwin were about the latest to return to Hilo from the scene of the recent outbreak. They went up the trail back of Hilo, which goes through the woods and onto the flow of 1852. From Humuhua station they had a view of the whole line of flow and its outbreak at the crater. The survey observations were made from that point. This route, however, is so rough and difficult that it is not to be recommended for general use. It is mostly over broken pahoehoe. Mr. Baldwin reports the eruption as having ceased. No advance was made at the end of the flow during the day and two nights which they spent there, and nothing but a little smoke appeared in the crater. It appears to have subsided about the time that the earthquake shook of the early part of the week occurred. According to Mr. Baldwin the flow had not turned toward Hilo, nor is there any evidence that it would have taken this direction had it continued.

The McCandless party returned on the Kinau. They visited the crater by way of Kawaihae. At the time of their arrival the lava was still hot but the flow had entirely ceased. It was remarked by this party that vegetation within ten feet of the lava hardly yet cooled was as green as if no boiling lava had menaced it, showing that the lava must have pretty well cooled off before it finally stopped.

FRESH OUTBREAK REPORTED.

A letter received from Oahu by a gentleman in this city, contains a hurriedly written postscript to the effect that news had just reached him that the eruption had broken out again with renewed vigor, but the gentleman who received the letter could not be found last night.

BIG STOCK DEAL.

Three Hundred Shares of Oahu Changed Hands Yesterday.

(From Saturday's Daily.)

The sale of 300 shares of the paid-up stock of the Oahu Sugar Company reported on the Honolulu Stock Board yesterday morning was the largest single transaction that has taken place for some weeks. The price was \$183 1-3, the total amounting to \$55,000. Chas. J. Falk was the seller and Albert Raas the buyer. Both brokers were extremely reticent concerning the matter. Mr. Falk acknowledging that he had received his money and Mr. Raas that he had the stock in his pocket.

The latter broker, however, said finally that the purchase was made for account of parties living on the Mainland, and that he considered it by far the best investment made in the stock market this season.

INTERESTING EXHIBIT.

Specimens of Lava From Old and New Flows.

The Pearson & Potter Co. have on exhibition in one of their show windows a number of specimens of lava that are of especial interest just now.

Samples of aa are shown from the flow of 1880-81, as well as from the present flow; and also some specimens picked up on the latest active crater while it was actually in eruption. These latter are the trophies of A. M. Atherton, who climbed the fiery cone and who is said to have made the nearest approach of anyone to the mouth of the crater.

There is also shown one sample of yellow sulphur rock from Kilauea.

PROF. HITCHCOCK

Dartmouth College Scientist Talks on Ash Formations.

MAUNA LOA'S NEW GROWTH

Views on the Relation of Earthquakes With Lava Flows—Soil Investigations.

Professor C. H. Hitchcock, the geologist of Dartmouth College, who has been on Hawaii for the past two months, returned on the Kinau. His visit to the Islands at this time was mainly to investigate the ash formations on Hawaii, but he was fortunate in being able to include the recent eruption of Mokuawewe in his trip.

He found in all parts of the island evidence that prior to this century there had been explosive eruptions by which great volumes of volcanic ash have been blown out and distributed generally over the island.

"On the other side of Hawaii," he told the Hawaii Herald, "it is quite apparent in the soil, though it is of a lighter color than on this side owing to the lack of rain. On the Oahu side it is in plain view in many of the cuts and my investigations showed that fundamental base of the island formation is aa. In subsequent years there was an explosive eruption which sent out ashes in the form of smoke, so fine was it in texture. This settled over the island and years afterward these ashes became soil and seeds carried by the wind or by birds were dropped on it and took root. Then came another ash-flow and that is what appears on the surface. It was many years ago, evidently, when this took place, as the vegetable growth on this side of the island bears witness. This combination is what makes the soil of Oahu so wonderfully rich and the fact that it has not packed enough people to run feet without an effort. I would say that the large quantity of smoke noticeable over these islands and far out at sea contained a percentage of this same ash, though I do not know positively that such is the case. As to the date of the last flow of this character, it would be hard to determine. I am not familiar with the history of the islands as to the reign of kings, but we know that what is known as the Umi road, which was built under the direction of that sovereign, is on top of the most recent ash-flow.

"It is possible that damage has been done by them to the extent of covering up buildings, primitive ones, of course, though it probably was not accompanied by loss of life. Unlike the flow at Pompeii, which was of gravel, and came suddenly, this came gradual, and persons had time to get out of the way. It is easy to imagine the destruction of the native houses of that time because they were frail compared with those of today. It is barely possible that these explosive eruptions from Mauna Loa have ceased, and that there will be but one kind, such as the recent one, in the future."

Questioned regarding the relation of the earthquake of Monday with the subsiding of the lava flow, Professor Hitchcock said:

"It is difficult to fix the connection; it may be that the explosion of the gas, which caused the shock, opened up heretofore closed channels under the surface of the mountain side, and that the lava is escaping somewhere. On the other hand, it may mean that there is a flow going in another direction, possibly into the sea by distinctively underground channels. Kilauea we know is active during long or short periods and then surface activity ceases. The fire and lava disappear somewhere, but scientists have not yet discovered the direction. Eruptions may continue from time to time on this island for many years to come, but I look for them to be principally on Mauna Loa because that is the youngest mountain. Geologists have a rule for determining the relative difference in the age of islands, and following this rule we find that the end of Hawaii around Kohala was made first; then came Mauna Kea, and finally Mauna Loa. The process of formation has continued through thousands of years. We obtain our results by measurement of the ravines and calculating the time necessary for the water to cut through the lava and earth. Excepting the Waikuku, you have no ravines in this part of the island. Mauna Loa has no water courses, consequently there are no canyons. As conditions change these may, in a sense, develop. We studied the building of Mauna Loa and find that it is by layers of lava which have come in flows precisely as the last one. If you will listen to the accounts given by persons who have watched the growth of the new cone from almost nothing to its present dimensions, you will hear the duplicate, almost, of the story of the building of Mauna Loa as scientists have proved by their investigations. Should these lava flows continue the shape of the mountain must surely change."

A TESTIMONIAL.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we have found it to be efficacious, and in croup and whooping cough in children we deem it indispensable.—H. P. RITTER, 4127 Fairfax ave., St. Louis, Mo. For sale by Benson, Smith & Co., Wholesale Agents, for H. I., and all druggists and dealers.

ABDUR RAHAMAN, AMIR OF AFGHANISTAN. The Amir of Afghanistan is not dead and, according to the latest reports, is not in poor health, notwithstanding recent rumors. He is a picturesque and crafty old Oriental and fully realizes the important position he occupies because of the fact that his realm is the natural barrier between Russia and India. The Amir has an army of 150,000.

MASTER'S REPORT FOOTBALL SEASON

Brings Up an Interesting Question.

As to Liability of Guardians and Administrators for Interest on Uninvested Funds.

Judge Perry has made an order in the matter of the estate of Evelyn Nichols Bidwell, by which Jonathan Shaw, the guardian, is ordered to forthwith deliver to Fannie B. Nichols, mother of said minor, a certain trunk and lady's gold watch now in his possession, for the use of said ward; also that he do forthwith pay the said Fannie B. Nichols the sum of \$150 to be used in providing a suitable wardrobe for said minor and the payment of her traveling expenses to California.

In the same estate Henry Smith, as master, has filed his report on the account of Jonathan Shaw as guardian in which an interesting question is raised by the master, who says: "No annual accounts having been filed for the period from September 21, 1893, to June 30, 1899, the question arises, is the guardian chargeable with interest for credit balances from year to year? A careful analysis of the account shows that, in round numbers, the guardian has had uninvested cash balances in his hands of about \$100 for five years, \$50 for four years, \$380 for three years, \$550 for two years and \$550 for one year. At 6 per cent per annum, interest would have been about \$189 on all those balances, or 50 per cent more if the rate was 9 per cent. The guardian has charged only \$150 for commissions, though he would have been entitled to charge \$171.47 on income and \$116.40 on principal received. Possibly the difference is now waived so as to make it appear about an even thing, which, under the circumstances, would appear to be as fair as could possibly be, unless it is held that the guardian should have lost no time in looking around for safe securities in which to make investments. In all probability, too, the guardian may have entertained an idea that he was not called upon to invest his income receipts, his principal receipts being only so recently received."

In conclusion the master states that he knows of no reason why he should not recommend approval of the account and he so does.

It is folly to suffer from that horrible plague of the night, itching piles. Doane's Ointment cures quickly and permanently. At any chemist's.

Assured From the Meeting on Saturday.

Charles Crane Elected Manager for This Year—J. Q. Wood's Report and Assurances.

A number of the town football players met last Saturday afternoon in the rear offices of the Safe Deposit Co. The report of J. Q. Wood, manager of last year's team, was read. It showed that expenditures had been considerably in excess of the receipts. This difference Mr. Wood had paid out of his own pocket. This is only one of many similar acts of Mr. Wood arising from great interest in the game and his desire to see it flourish in Honolulu. A vote of thanks was tendered the "daddy" of local football who resigned his position as manager on account of his proposed Eastern trip.

C. S. Crane was then nominated for the position and elected unanimously. In regard to selecting a captain it was decided that the best policy would be to wait until the players came to the front in order that the best choice might be made.

A SISAL PLANTER.

Tells of Operations on His Farm. Machinery Next Year.

Manager A. S. Turner of the Hawaiian Fibre Co., was in Honolulu yesterday. He reports that everything is looking in first-class shape at Sisal, where the company's farm is located. This is on the line of the O. R. & L. Co., a few miles beyond Ewa.

"We all still have a firm faith in the sisal industry," said Mr. Turner. "We have about 160 acres out now, which is about double what we had when the industry was first brought to the people's notice in the Advertiser some time ago. The plants are coming up in first-class shape, despite the fact that there has been no rain for some time. We have lately purchased all of the plants which were owned by Ewa plantation."

"We shall put in the machinery for the shredding and refining next year. Then it will not be long before the fibre imported into these Islands will be conspicuous by its absence. Anyone who cares to go up to the office of the Bureau of Agriculture can see for himself the quality of the fibre being grown right here on Oahu."

MAKING PUBLIC POLICY.

Another step toward gathering the material necessary for the construction of the sewerage system was taken yesterday. The contract for furnishing the screens was awarded to the Honolulu Iron Works for \$665. They were the only bidders.

AN AGREED CASE

Of Importance to Olaa Lease Holders.

Supreme Court to Pass on Rights of Those Who Took Up Land in That District.

There has been filed in the Supreme Court a document of considerable importance to owners and lessees of land in the Olaa district of Hawaii. It is the submission of an agreed case, which will determine the rights of all parties who may be similarly affected. The case will come up at the September term and it is entitled E. A. Horan, plaintiff, against Sanford B. Dole, as President, J. A. King, as Minister of the Interior, and J. F. Brown, as Agent of Public Lands, respectively, of the Republic of Hawaii. Following is the statement of facts agreed on:

That on the 25th day of January, 1894, the plaintiff, E. A. Horan, purchased of A. G. Curtis lease No. 50, Series B, to lot No. 284 in the District of Puna, Olaa survey, Island of Hawaii; that said lease was duly assigned in writing and said transfer authorized by the written consent of the Crown Land Commissioners endorsed thereon.

That the plaintiff immediately after said assignment took possession of the lot, paid the rent as it became due, and occupied and cultivated and improved the premises according to the stipulations of the lease from the date of said assignment up to the 20th day of June, 1896, at which time he made application for the purchase of the lot.

That the reason plaintiff applied for a patent to said land at that time was that his money and resources were exhausted, and in order to cultivate the land he then had planted in coffee, and to clear and cultivate an additional area, it was necessary for him to raise money, and that the only means he had of so doing was by procuring a patent of said land and mortgaging the same.

That on July 1st, 1896, an agreement of sale was entered into with the Commissioners of Public Lands for said lot 284; that he performed all the conditions required and a patent was issued to him for the same, containing an area of forty-seven and a quarter acres; that since the issuance of said patent he has continued to reside upon, cultivate and improve said land, and on June 6, 1899, and now, has the entire area under cultivation, and has placed improvements thereon valued at \$2,400, and has expended in actual cash on said land the sum of \$9,000.

That when the plaintiff entered into the agreement of sale with the Commissioners of Public Lands, he did not intend to waive his right to take the additional amount of land allowed to him under Section 76, Part IX of the Land Act of 1895.

That when the new Olaa survey was made the plaintiff immediately made preparation to make application for the purchase of additional land allowed him under the law; that he was advised by the sub-agent at Hilo that he would not be permitted to purchase land for the reason that he had received a patent for the land covered by his lease; that on April 7th he addressed a letter to President Dole and the Minister of the Interior in which he stated that he neglected to make application for the additional area allowed him under the law and asked the privilege of taking 150 acres of the new Olaa survey, shortly to be opened, and saying, "I think you will agree with me that it will be too bad after spending \$9,000 in improving my present lot, which is all planted to coffee and contains 47 1/2 acres, if I lose the right to take up additional area, as I find it will take a larger area than I now hold at present to make coffee pay."

To this letter President Dole replied: "The Government is considering the matter of all Crown lessees under similar circumstances, and if any of them are granted the privilege of taking up the additional amount allowed by law you will have the same chance as the rest. It is my expectation that they will all be allowed this privilege."

That the plaintiff accepted the letter of President Dole as a promise and guarantee that he would be allowed the privilege of taking additional lands, notwithstanding the fact that he had taken a patent, if any of the Crown land lessees were given this privilege.

That on the 24th of April, 1899, a notice was published that lessees of Olaa lots under leases from the Crown Land Commissioners who had not taken up the additional land to which they were entitled might make application for such additional land within the portion of the new Olaa tract shown and numbered as lots 100 to 136.

That in pursuance of such notice the plaintiff presented himself in person at the office of the sub-agent in Hilo on the 6th of June, 1899, with the other Crown land lessees and presented his application for the purchase of additional land under said Section 76, Part IX, of the Land Act of 1895.

That the plaintiff made his application in the usual form, which was accepted by the sub-agent, and he was given a number in drawing for position in the line for selection of lots, and he selected lots 107, 108 and 109 in the new Olaa survey, containing an area of 150 acres.

That on the 30th day of June, 1899, the defendants, acting in their official capacity, denied the plaintiff's application and refused to issue to him a patent for the lots selected.

That Crown land lessees in Olaa who appeared at the Land Office in Hilo on the said 6th day of June, 1899, have been permitted to purchase additional land so as to make their aggregate holding 300 acres or less, and patents conveying the same in fee have been issued therefor.

The plaintiff contends that under the law and the facts he is entitled as of

right to purchase, at the appraised value, the lots selected by him, to-wit: Olaa lots Nos. 107-8-9, and asks that the defendants be ordered to issue to him a patent conveying the same to him in fee on receipt of the appraised value of the said lands.

The defendants deny this right and assert that the plaintiff lost the right or privilege of purchasing additional land when he accepted a patent for the land held under his Crown land lease. LeBlond & Galbraith and Cathcart & Parke for plaintiff, and Attorney General Cooper for the defendants.

Nearly Run Down

The schooner, Blanche and Ella, which is owned by Captains Nilson and Dudoit, had a narrow escape from being run down by a strange bark last Saturday night. Captain Nilson, who was at the wheel when the lookout sang out the warning, had barely time enough to put the helm hard to port before the stranger flew by.

TO PLANT TREES

Some Prizes for Willing Workers.

Inducements Offered for the Improvement of Residence at the Leper Settlement.

The following prizes have been offered with a view to encouraging tree-planting and the improvement of residence grounds at the Leper Settlement:

The Hawaiian Star, the Pacific Commercial Advertiser, Evening Bulletin and Independent, newspapers of Honolulu, offer prizes of \$50, \$40, \$30, \$20 and \$10 respectively, to be paid to such persons residing at Kalaupapa or Kalawao, Molokai, who shall show the best results in tree-planting at said Kalaupapa or Kalawao between August 1, 1899, and October 1, 1900. No person is to be entitled to more than one prize. Trees planted prior to August 1, 1899, not to be included. A committee of three persons will award the prizes. In making the awards the committee are not to be governed only by the number of trees planted, but all the circumstances are to be taken into consideration. The committee to consist of the following members: W. O. Smith, C. B. Reynolds, William Netley, William O. Smith, of Honolulu, offers five prizes of \$25, \$20, \$15, \$10 and \$5 respectively to the persons residing at Kalaupapa or Kalawao, Molokai, who shall show the best results in improving the condition and appearance of their respective premises between August 1, 1899, and April 1, 1900. No person is to be entitled to more than one prize. The committee appointed to award the prizes for tree-planting will award these prizes. In making the awards the committee will, so far as they can, take into consideration, all of the circumstances. The removal of stones, planting grass and flowers, and similar improvements, will be considered by the committee.

Prizes to be paid in April, 1900.

THE BIDWELL ESTATE.
Supplementary Report Filed by the Master, Henry Smith.

In the matter of the Estate of Evelyn Bidwell, a minor, a motion has been filed by Humphreys & Hankey, attorneys for Fannie B. Nichols, the next friend of said minor, that the supplementary report of Henry Smith, appointed master therein, be confirmed and that a decree be entered in conformity therewith.

In the supplementary report referred to, Henry Smith, as master, finds that the total interest chargeable against Jonathan Shaw, the guardian, for various sums retained in his hands for various periods instead of reinvesting the same, to be \$262.63. The master also says that the previous comment in regard to the commissions due the guardian should be rescinded, as being contrary to the ruling of the Court, of which ruling the master had not been previously informed. As forming a basis on which to fix the guardian's bond the master reports the following assets in the guardian's hands: Eight shares C. Brewer & Co. stock, \$900; cash on hand, \$5,985.24; interest now charged to guardian, \$262.63; total, \$7,047.87.

A LAKE UNDER LONDON.

To London, as to almost every large city, the question of a water supply has been a serious problem. Londoners now see a way to solve it. The engineer of the County Council has informed that body, says the Golden Penny, that underlying London is an immense lake, in a chalk basin 2500 square miles in extent.

The annual rainfall that sinks to this lake, 100 feet below the surface of the ground, amounts to 280,000,000,000 gallons, which would give a daily yield of 767,000,000 gallons.

An artesian well has already tapped the lake at Clapham, and it is pointed out that all that is necessary to insure a water supply is to sink a sufficient number of wells. The wonder is that London should have existed more than two thousand years and never discovered that the great lake was beneath it.

President Dole.

News was received by the Ke Au Hou last night that President Dole would not return from Kauai for several days, as Mrs. Dole had been suffering from a slight illness.

PROBATE CASES

Petitions for Letters of Administration.

Inventory of the Robert Grieve Estate—Adopted Child Who Is Not an Heir.

Jennie Grieve has presented her petition to Judge Stanley praying that letters of administration on the estate of Robert Grieve, deceased, may be granted to James L. McLean.

The petition sets forth the value of the estate as about \$41,462.30, consisting as follows: House and lot on Beretania street, near Pensacola, \$4,700; house and lot on Beretania street, near Kapiolani, \$5,000; house and lot on Nuuanu street, near Kukui, \$3,000; house and lot on Kukui place, \$2,000; leasehold of old Gazette building on Merchant street, \$7,000; printing office, \$4,000; cash in Bishop & Co.'s bank, \$1,500; household furniture, \$300; 25 shares Inter-Island S. S. Co. stock, \$2,500; 5 shares Wilder S. S. Co. stock, \$500; 2 shares People's Ice Co. stock, \$200; 5 shares Hawaiian Construction Co. stock, \$500; investments and cash in hands of W. R. Castle, \$10,262.30.

The heirs of deceased are Jennie Grieve, widow; W. L. Grieve, son; Mrs. Jennie R. McLean, daughter.

The usual order of publication of notice of time and place of hearing has been made.

Judge Perry has granted the petition of Frederick J. Wilhelm for letters of administration on the estate of Kamila Paulo Wilhelm, his deceased wife, who died in Honolulu on June 9th. The estate is valued at about \$10,000 and consists of the residence on Keomoku and Young street, four houses on King street, opposite Catholic Cemetery; twelve acres of land in Niihau, Molokai, and thirteen fully paid up shares of the Onu Sugar Company.

The heirs of the deceased are Frederick J. Wilhelm, Libby Illi Smithies. An adopted child, Frederick Albert Smith Wilhelm, is not entitled to participate in the estate under a special clause in the agreement of adoption. The bond of the administrator is fixed at \$5,000.

DOAN'S BACKACHE KIDNEY PILLS

Which Is Better: To Try an Experiment, or Profit By a Honolulu Citizen's Experience?

Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it.

The manufacturer's statement is not convincing proof of merit. But the endorsement of friends is. Now, supposing you had a weak back.

A lame, or aching one. Would you experiment on it? You will read of many so-called cures.

But they come from far-away places. It's different when the endorsement comes from home. Always remember,

Home endorsement is the proof that backs every box of Doan's Backache Kidney Pills.

Mr. H. S. Swinton, of this city, says: "I was a long sufferer from backache, having been afflicted with it for twelve years. Taking this as a symptom of kidney trouble, and seeing Doan's Backache Kidney Pills advertised as being good for complaints such as mine, I procured some of them at the Hollister Drug Co.'s store. I found upon taking them that they were doing me good, and was thereby encouraged to keep on until now I am cured of the backache. The merits of Doan's Backache Kidney Pills have been strikingly shown in my case, and I recommend them to other sufferers."

Doan's Backache Kidney Pills always have the picture of a leaf on the wrapper. In asking for Doan's Backache Kidney Pills ask for the kind which cured Mr. Swinton, and see that the leaf is on the wrapper.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Will Take a Vacation.

A. C. Lovekin, secretary of the Bishop Estate, will leave on the Australia next Tuesday for a two months' vacation. He will go as far as Buffalo, N. Y., stopping at various points of interest en route.

The Strike Ended.

The strike of the boiler-makers of the Honolulu Iron Works is past. Foreman McKay, who was the bone of contention, handed in his resignation, which was accepted. Everything is running smoothly again.

MISS BOWLES SAVES SOULS.

Miss Melvin K. Bowles, of Prospect, Wis., is just 16 years old. One year ago she was given an unlimited license to preach by the Honey Creek quarterly meeting of the Free Baptist church. Recently she preached the opening sermon at the yearly meeting of the church, a great audience being present. Miss Bowles will attend the Theological seminary at Hindsdale, Mich., after she gets out of school.

Sure Cure

for Colds

When the children get their feet wet and take cold give them a hot foot-bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. The chances are they will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared.

Old coughs are also cured; we mean the coughs of bronchitis, weak throats and irritable lungs. Even the hard coughs of consumption are always made easy and sometimes cured by the continued use of

Ayer's Cherry Pectoral

Your own doctor will explain this to you. He knows that wild cherry bark is the best remedy known to medical science for soothing and healing inflamed throats and lungs. You may rely upon Ayer's Cherry Pectoral to stop your cough.

Beware of worthless imitations. The name Ayer's Cherry Pectoral is blown in the glass of each bottle. Put up in two sizes.

HOLLISTER DRUG CO., Agents

LOCAL BREVITIES.

Mrs. Joseph Sisson died in Hilo a week ago last Saturday.

Mrs. John Lucas, who is on Hawaii, is recovering from a sprained ankle. Captain William Matson is to build a large warehouse at Waialae, Hilo.

There were ninety-two deaths from various causes during July in Honolulu.

This Kinai brought the heaviest passenger list from Hilo in her history this last trip.

Mrs. J. T. Stacker and children have gone to the Mainland for a three months' visit.

The City of Columbia is billed to make the start for Hongkong again in about a week.

Alex Cockburn, the Kailua merchant, is in the city. Mrs. Cockburn accompanies him.

The Badger sailed for San Francisco at 10 o'clock Saturday morning. She did not carry mail.

It has been decided to procure funds and go ahead with building a Chinese mission church at Hilo.

George P. Castle is making considerable improvements to property he has recently purchased at Waikiki.

A guard-rail has been erected in front of the excavation for the new Thurston building on Merchant street.

Shroeder's Walluku Hotel has been removed to the building next to Hoffman & Vettesen's store and a few doors away from the old location.

Contractor Hoffman, who was to build the Beretania street school, has had to send to the Coast for workmen, as there is a scarcity of skilled labor here.

Malehini, an old-time offender, was sentenced to six months' imprisonment yesterday for larceny in the second degree. He was caught rumaging in the till of a Chinese store in Palama.

E. JOHNSON. DR. W. S. NOBLITT. LEO. SCHELLBERG.

President. General Manager and Medical Director. Assistant Mgr.

Hawaiian Medicine Co.

LINCOLN BLOCK (upstairs). KING ST., HONOLULU.

We Manufacture a Line of

Pure Family Medicines.

One is the PAUEHA COLIC MEDICINE.

It is the best medicine in the world for colic in infants, children or adults. RELIEVES as though by MAGIC all abdominal and stomach pains. It contains no morphine, laudanum or other preparations of opium, and can be given with safety to the youngest infant.

BISHOP ESTATE

Full Text of the Annual Report
of the Trustees.

IMPROVEMENTS AT THE SCHOOLS

Inventory of the Property on Hand—Lands
Acquired and Lands Sold in
the Year.

One of the clauses in the will of the late Bernice Pauahi Bishop directs that the greatest publicity compatible with the welfare of the estate shall be given to all matters connected with her estate, and in addition to filing the accounts of receipts and expenditures of the estate annually the Trustees are further required to file with the Circuit Court a report of its condition and affairs from year to year. Below will be found the report just filed for the past year:

The Trustees under the will of the late Mrs. B. P. Bishop beg to submit their report for the year ending June 30th, 1899.

The usual accounts are herewith presented:

The total receipts from all sources during the year, including cash on hand on the 1st day of July, 1898, amounted to \$345,860 80 And the total amount of expenditure on every account was \$341,205 95

Leaving a balance on hand of \$4,654 85

In re the bill of relief applied for from the Court in connection with a construction of the will of the late Mrs. B. P. Bishop and the various trusts under which the Trustees hold property, referred to as having been carried to the Supreme Court for jurisdiction in the last Annual Report, decision was handed down by that body on October 11th, 1898, to this effect: Held, The Trustees, in the exercise of a sound discretion as to the best interest of the estate, may sell lands without application to a Court of Equity for permission so to do.

By the death of Aueha (w), on May 16th, 1899, and the death of Princess Kaiulani, on March 6th, 1899, devisees under the will of Bernice P. Bishop, the lands devised to them for a life estate, viz: lot on Punchbowl street, Honolulu, to Aueha (w), and land and spring known as Kaniwai, Waikiki-uka, Oahu, to Princess Kaiulani, have reverted to the control of the Trustees.

The Trustees have during the past year commenced the filling in and improving of the large tract of land known as Kakaako, situated on the southeast side of the city, this property having come into demand as sites for iron works, warehouses, etc.

The constantly increasing interests of the estate in connection with the lands controlled has necessitated the employing of a competent person to take charge of the land department, and the services of Mr. F. S. Dodge, a gentleman for many years prominent in the Government survey department employ, have been secured.

The Trustees, in granting long-term leases of agricultural lands during the past year, have adopted a rental system based upon a percentage of gross products derived from the lands demised when such gross products shall exceed a fixed minimum valuation. This system is deemed best under long-term leases.

A comparison of former accounts with the one submitted will show a substantial increase of revenue returns over all returns of other years since the estate came under the control of the Trustees.

KAMEHAMEHA SCHOOLS.

During the year the work in the agricultural department of the Boys' School, under Professor T. S. Sedgwick, has been thoroughly inaugurated. The students taking this course of instruction are enthusiastic, and the Trustees believe that knowledge imparted in this department will be of the greatest benefit.

Believing that a practical knowledge of nursing and care of the sick would be of benefit to the students of the Girls' School, the Trustees, upon the beginning of the next term, will add to the staff of teachers in that institution a trained nurse to give instruction along such lines in connection with other duties.

An addition is being made to the main building of the Girls' School to give increased bathing and dormitory facilities.

Extensive improvements have been carried on during the year upon the grounds surrounding the several schools, at a considerable expense.

Plans looking towards the putting in of a complete new water system for the various uses of the schools and grounds connected therewith are being perfected.

In the matter of attendance the several schools are filled to their utmost capacity.

INVENTORY OF THE PROPERTY BELONGING TO THE ESTATE ON THE 30th OF JUNE, 1899.

The Trustees return as in their hands the whole of the property included in the inventory filed with former accounts, except as follows:

PROPERTY ACQUIRED.

The Trustees of the Queen Emma Estate and Queen's Hospital having shown their claim to an interest in Royal Patent 3455, land of Haleakala, Maui, a quit-claim deed of such interest was procured from them for the sum of two hundred and fifty dollars.

PROPERTY SOLD.

A right-of-way for road was sold the

Hawaiian Government, being an area of 61,565 square feet, at Kapakahi, Ewa, Oahu, and being a portion of M. A. 39 to Kaulokamoa. Selling price, \$200.

A portion of Royal Patent 4475, Land Commission Award 7713, Apana 39, III of Kapaeha, Waikiki-uka, 4,611 square feet, was sold to James Osborne, for \$250.

A portion of Royal Patent 299, Land Commission Award 113 to Paki, Haleakala premises, King and Fort streets, Honolulu, being 193 square feet in rear, was sold to Miss Agnes M. McIntyre, for \$600.

The remainder of Royal Patent (grant) 1955 to J. Pikoi, corner Queen and Maunakea streets, Honolulu, was sold to Virginia L. McLeod, for \$2,000. A portion of Royal Patent 4475, Land Commission Award 7713, Apana 39, Kawailoa, Wailana, Oahu, 7,250 square feet, was sold to Jesse Amara, for \$50.

Personal property belonging to the estate on the 30th day of June, 1899, was as follows:

Cash on hand \$4,654 85
Bills receivable 199,648 20
Bills receivable secured as follows:
B. F. and E. L. Dillingham notes for \$100,000; collateral, 100, \$1,000 each, Oahu Railway & Land Co. 6 per cent bonds \$100,000 00
Real estate securities 99,648 20
Total \$199,648 20

OLAA MILL SITE

To Be Eight and a Half
Miles From Hilo.

Chief Engineer Kluegel Denies Rumors That the Hilo Railway Project Has Been Abandoned.

Discussing the work being done on the Hilo Railway and the location of the Olaa mill site, Chief Engineer C. H. Kluegel says in the last number of the Hawaii Herald:

"The preliminary lines of the Hilo Railway have been surveyed, but the exact location of the mill site must be settled before work can be pushed much further. I feel safe in saying that the locality will be about eight and one-half miles from Hilo and about three-quarters of a mile back from and on the left-hand side of the Volcano road. When this is finally settled upon work will be commenced on the permanent locations. I have greater faith in the future of the Olaa Sugar Co. than I ever had before, a faith which I backed up with the purchase of 400 additional shares of stock just before I left Honolulu. The work of clearing the lower lands is progressing favorably, and in many places the lands are as clear as meadows. The work is being rapidly and well done, and it appears to me that it cannot be more than a few weeks before at least a hundred plows will be going over the land. The company is fortunate in many ways. There will be no necessity for pumping-plants, which in themselves constitute a good dividend, and the conditions are such that the labor question will be less annoying than on plantations where irrigation is necessary."

HAS NOT RESIGNED.

Captain Campbell Denies False Report in Circulation

Captain Campbell of the Inter-Island Steamship Company denies the reports circulated by irresponsible parties to the effect that he is about to sever his connection with the Inter-Island Company. He said on Saturday that he was at a loss to think whence these reports should have emanated. Both the officials of the company and himself were much annoyed about them.

"The facts are just these," said the captain, "my health has not been good for some months and the company has been kind enough to insist on my taking a vacation. I am to have sixty days, or even three or four months if I wish it. My orders being not to come back till I get ready. Capt. Haglund will assume my duties during my absence. There is absolutely no truth in the report that I am to sever my connection with the company."

Company F Wins.

The return shoot between a team from Company F and one from the police force was held last Saturday. It resulted in favor of the military by a score of 416 to 361. The highest score of the police was 40, made by Willis. Two of F's team made 45 and all but two did 40 or better. The individual record was as follows:

Company F—Peterson 35, Drake 39, Ferreira 43, Storey 40, Drummond 41, Bonfield 43, Ludwig 42, Burnette 45, Johnson 45, Gouven 45. Total 416.
Police—Captain Kanaka 38, Captain Kihai 30, Koons 29, Atanai 31, Kalakini 38, Willis 40, Lambert 38, Nalpo 35, Hubbell 37, Lieutenant Gardner 35. Total 361.

THE BEST REMEDY FOR FLUX.

Mr. John Mathias, a well-known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by Benson, Smith & Co., Wholesale Agents for H. I., and all druggists and dealers.

WON IN THE TENTH

Stars Win First Game of
New Series.An Imported Umpire Fails to Give
Satisfaction—The Score Was
6 to 5 at the End.

The baseball game on Saturday was won by the Stars after a desperate and exciting struggle. Ten innings were played before the game was decided. The score of 6 to 5 speaks for itself. Though defeated, the sympathy and admiration of the largest crowd of the season went to the Kams, for the general impression was that they got decidedly the worst of the umpire's decisions. It will probably teach them a lesson, however, not to accept the services of strangers in the future.

The game, barring the umpiring, was a fast one. Both teams were on their toes. At the end of the fifth inning the score was four all. In the sixth the Stars goose-egged, while the Kams pulled one out of the fire. Zero to cipher to hold the tale of the seventh. In the eighth the Stars evened things up by getting a man across the plate. The Kams came to the bat in the ninth with the score five to five. In this crucial inning both teams ciphered. The Kams tried hard to land a run in the tenth, but failed. By a magnificent steal Moore came in when two of the Stars were out, winning the game.

The crowd was large and enthusiastic. The hand added greatly to the liveliness of the occasion.

Following is the detailed score:

Stars	ABRIBSBPOA
Moore, 2b,	5 3 1 3 3 3
Kiley, rf,	5 1 0 1 0 0
Gorman, c,	5 1 1 0 9 1
Lishman, ss,	5 0 2 1 0 0
Willis, lb,	5 4 0 2 10 0
Davis, lf,	4 0 1 0 1 0
Pryce, 3b,	4 0 0 0 4 2
Bower, cf,	4 0 0 0 0 0
T. Jackson, p,	4 1 1 0 1 10

Moanalua Church.

Father Valentine of the Catholic Mission is busily engaged with the plans for the enlargement of the church at Moanalua. He is quite an adept in the draughtsman's art, as is shown by several other buildings the plans of which he has drawn. The present church at Moanalua is thirty by sixteen feet. When the enlargement is completed it will be just about double in size, making it quite a large building. The work on it will be begun in a few days.

POLICE RAIDS.

A Kakaako House and Beach Resort Raided.

Saturday night the police, under the leadership of David Kaapa, raided one of the notorious Kakaako joints. A number of well-known young men were there at the time, but made themselves scarce as soon as the cry of "Police!" was raised. The case against the proprietors will come up before Judge Wilcox this morning. The charge is selling liquor without a license. Yesterday afternoon Deputy Marshal Chillingworth accompanied by officers, paid an official visit to a well-known beach resort. A quantity of incriminating evidence was secured and will be used against the proprietor when the case comes up this morning.

St. Augustine Chapel.

The soldiers stationed at the Waikiki barracks are making good use of St. Augustine chapel which was built for their benefit by the Catholic Mission. The reading room and library are well stocked with papers, magazines and books. Some amateur theatricals are contemplated and now that Battery 1, said to contain the dramatic talent of the battalion, has moved to Waikiki there will probably be some performances.

TEXAS' OLD NAME

(Indianapolis Journal.) Probably the fact is not generally known that Texas was at one time and for many years called the "New Philip-

pine." The first settlement in what is now Texas was made by French emigrants in 1685. During the next twenty-five years there was an intermittent struggle between the French and Spanish for supremacy, resulting in favor of the latter, and in 1814 the name of the New Philippines was given to the country. This was its official name in Spanish records for many years, and until the name of Texas, from a tribe of Indians, gradually came in vogue.

A Kona Planter.

A Portuguese named Pedro is in this city from Kona, where he is engaged in planting sugar cane under agreement with the Kona Sugar Company. He has ninety acres of growing cane nine months old on his own land, will plant ten more by the end of next month and another forty by the end of this season. His visit to Honolulu is for the purpose of procuring additional labor.

Hooligans Arrested.

A crowd of about forty noisy boys and young men were arrested in Punui yesterday afternoon. Some were playing baseball, others were "shooting craps," and all combined to create a disturbance. They were charged with breaking the Sunday laws.

ON WATER RIGHTS

Judge Perry's Latest Decision.

Rights of Rival Chinese to Manoa Valley Water Laid Down in an Oral Opinion.

In the case of Ung Lin et al. vs. Leong Hoo et al, a bill for injunction to restrain the defendants from interfering with certain water rights in Manoa valley and in which one of the defendants is now undergoing a sentence for contempt of court, Judge Perry has rendered an oral decision, as follows:

"This is solely a question of fact, and I know of no advantage to be gained by taking any further time. The evidence is now fresh in mind, and my only regret is that the Court is not at liberty to apportion water as it might want to if no rights had been acquired by the parties. Its duty, of course, is simply to state what the rights are that each party has in water, as established by the evidence adduced here in court.

"The decision of the commissioners touches only upon the rights of these parties as distinguished from those of neighboring owners of land, and leaves the question open as to what the rights are between those holding different portions of the same land—the Stevensons land.

"I believe, from the evidence, and find that the right acquired by the upper land, that held by the plaintiffs, is to receive the water into the main patch, Keanaawa, and the smaller patch next below on Monday between 3 and 6 o'clock in the afternoon, and that the patches below, now cultivated by the defendants, are only entitled to such water as overflows after the plaintiffs' said patches have received their share sufficient to keep their taro growing.

"I also believe, from the evidence, and find that when the water has risen in Keanaawa to the top of the rock, which is placed at the outlet, that that patch has then sufficient water for its purposes, and that what there is flowing into it after that should flow into the patches below, so that I think the respondents ought to be restrained from taking more water than they are entitled to, as now found by me, and they should allow Keanaawa to become full first to the top of the rock and then to flow on to the patch below and from that into their own patches.

"I also think, whether or not the plaintiffs have heretofore diverted from the Kaalpu ditch water on Monday afternoons between 3 and 6 o'clock, that they have not the right to do so, and that all of that water must be allowed to flow into Keanaawa and the patch next below, so that the defendants may have the benefit of any overflow after the plaintiffs' patches are provided for.

"I award no damages. The plaintiff is entitled to costs.

"A decree will be signed accordingly."

A BOY AND A GUN.

The Gun Goes Off and the Boy Gets Hurt.

A boy and a loaded revolver combined to cause an accident that nearly cost a lad's life. Three native boys, Jim Koloa, his brother Alapai and Jack Nalwe started out for a bicycle ride to Diamond Head yesterday afternoon. Nalwe carried a loaded, 32 calibre revolver. When out near the Tramway's stables they wanted to fire off the pistol. A cartridge jammed and all the boys tried to fix it. There was a sudden report and young J. Koloa fell over with a bullet just above his heart. A little lower and the result would have been fatal. The wounded boy was taken to the Queen's Hospital by Deputy Marshal Chillingworth. The bullet was extracted and the lad is doing nicely.

Kameo Dropped Dead.

Kameo, a native member of the Mikahala's crew, dropped dead on Kaula yesterday just prior to that steamer's departure for Nihau. Heart failure was the cause of death.

NEWS FROM MAUI

Deputy Sheriff Scott Goes to Olaa.

Case Planting on Nalika Plantation—Proceeds Sugar Plantation on Uluapalua Ranch.

MAUI, July 29.—Quite a number of people have visited Haleakala during the week and several of them report that during the hours of darkness little could be seen of Mauna Loa's fire on account of banks of heavy clouds which however generally cleared away at the approach of dawn revealing columns of smoke but no glare of volcanic light. A large party of young men from Spreckelsville and Hamakua reported that the reflection from Mokuaweewe was not very brilliant during the night of the 22nd. A New York party composed of Prof. A. C. Bickmore, H. L. Morehouse, field secretary of the American Baptist Home Missionary Society, C. C. Langill and guides spent Tuesday night, the 25th, at Craigielea and though they could see no reflection of Mauna Loa on account of fog, witnessed a most gorgeous sunrise from the summit of Haleakala. News came per steamer Mauna Loa, on the 28th, that the lava flow on Hawaii had stopped.

W. G. Scott recently deputy sheriff of Wailuku departs for Hawaii August 1st, to become luna on Olaa plantation. Mr. Scott has the good wishes of many Maui friends for success in his new venture. Alfred Hayselden of Lahaina assumes Mr. Scott's former position and Robert Lindsay of Hana will go to Lahaina. Captain of Police H. Z. Kaipo will be promoted to the position of deputy sheriff of Hana.

Nalika plantation is busy planting thirty-five acres of seed cane, the larger part of which arrived by the Claudine of the 26th, from Olowalu. The plantation had three acres of seed cane. Two large cottages have been recently completed, one of which will be occupied by the manager and bookkeeper and the other by the head luna. The plantation will build a new landing midway between the old one and the one recently completed by the government. The latter was unsatisfactory because there was space for only one railroad track leading to it, and it would be too expensive to widen the roadway owing to the great height and steepness of the adjoining cliff.

Mr. and Mrs. Frank L. Hooks of Honolulu are at Kawaapae Resort, Makawao.

Dr. R. I. Moore, the dentist, has been several weeks in Hana. He will soon visit Pala.

During the 25th, congratulations were due Dr. and Mrs. McConkey of Pala on the birth of a baby girl.

Arthur Baldwin of the Harvard Law School returned to Hana on the 26th. It is reported that an agent representing Honolulu capitalists visited Uluapalua Ranch during the week with a view of purchasing the property. It is stated that a large acreage of this estate is available for the production of sugar.

Weather: Generally warm and dry.

Down Again

In prices is the market for flour and feed, and we follow it closely.

Send us your orders and they will be filled at the lowest market price. The matter of 5 or 10 cents upon a hundred pounds of feed should not concern you as much as the quality, a poor feed is dear at any price.

We Carry Only the Best.

When you want the Best Hay, Feed or Grain, at the Right Prices, order from

CALIFORNIA FEED CO.

Nothing
So Bracing
—AS—
PURE AIR

Everyone enjoys it; your health depends upon it. You can just as well have it as your prudent neighbor. Old and young alike endorse it.

DISINFECTINE

With the heat of summer comes the foul and disease producing air from the cesspool, vault and cellar. You must be on your guard against the accumulation of trash, garbage, etc.; it is dangerous to have around.

INSURES

No skill is required to have the air about your home pure. The cost is trifling and effect is wonderful. Disinfectine as prepared by us will serve the purpose.

PURE

We have it prepared in quantities to supply any or all demands. We will deliver to your home, if within the city limits, a trial bottle at 25 cents. Don't neglect to order a bottle at once.

AIR.

Those who are familiar with the article order it by the gallon, which proves beyond all doubt that it is the proper thing.

Manufactured only by

HOLLISTER DRUG CO.

SOLE AGENTS.

DR. J. COLLIS BROWNE'S

Chlorodyne

Original and Only Genuine.

Coughs, Colds, Asthma, Bronchitis.

Dr. J. Collis Browne's Chlorodyne

Vice-Chancellor SIR W. PAOR WOOD stated publicly in court that DR. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE; that the whole story of the defendant, Freeman, was deliberately untrue, and he regretted to say it had been sworn to. See The Times, July 1, 1894.

Dr. J. Collis Browne's Chlorodyne

Is a liquid medicine which cures PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, reports that it ACTS AS A CHARM; one dose generally sufficient.

Dr. Gibbons, Army Medical Staff, Calcutta, states: "Two doses completely cured me of cholera."

Dr. J. Collis Browne's Chlorodyne

Is the TRUE PALLIATIVE in Neuralgia, Gout, Cancer, Toothache, Rheumatism.

Dr. J. Collis Browne's Chlorodyne

Rapidly cuts short all attacks of Epilepsy, Spasms, Colic, Palpitation, Hysteria.

IMPORTANT CAUTION.—The immense sale of this remedy has given rise to many Unscrupulous Imitations.

N. B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, Dr. J. Collis Browne. Sold in bottles, 1s. 1/6d., 2s. 6d. and 4s. 6d., by all Chemists.

MARCUS ISLAND

Modern Robinson Crusoe Has Troubles.

Captain Foster Says Japanese Government Threatens to Lower His Stars and Stripes.

If something is not done to prevent it, says an exchange, Captain James Foster, an American skipper possessing even more than the usual amount of intrepid daring and pluck generally attributed to the Yankee mariner, is about to be dispossessed by the Japanese government of a minute little island over which he has for many years exercised the absolute sway of a potentate.

Captain Foster is somewhat of a Robinson Crusoe. The island, he says, is his by right of discovery and by right of possession, and he does not intend to give it up. It is located on the Tropic of Cancer, half way between the Hawaiian Islands and China. Captain Foster likes the location and he likes the climate. He says it agrees with his health.

The island is five miles long and is densely covered with trees and shrubbery. A white, sandy beach surrounds it, and near its center is a knoll rising about 200 feet above the sea. Moreover, it is near the track of vessels plying between Honolulu and Yokohama, being 2,700 miles distant from Honolulu and on the direct route to Manila.

Altogether, and especially since the results of the recent war have begun to make themselves felt, Captain Foster feels that his island, which is known as Marcus Island, is a very valuable possession. So he is naturally a little out of sympathy with the Japanese movement. Captain Foster believes in territorial expansion, but he does not like to see too much of it, and when, in his own words, "a lot of yellow-skinned, slant-eyed mongrels try to steal this island I'm going to put a stop to it."

So Captain Foster has applied to the Government to interfere and he confidently expects the Government to do so.

Captain Foster discovered the island over ten years ago and received permission from James G. Blaine to raise an American flag thereon.

This was welcome news to Captain Foster, and a few hours after it reached him the Stars and Stripes were raised on the island, and there they have waved ever since, not a single great power uttering a word of protest, but all, on the contrary, tacitly, if not openly, recognizing Captain Foster's ownership and the suzerainty of the United States. This is not surprising, for until recently no one except Captain Foster seems to have thought of the island of any value.

Captain Foster says that he has been more fortunate than his predecessor, Mr. Crusoe. The latter was forced to repel invading and piratically inclined Malays within a few months after taking possession of his island, whereas only recently, Captain Foster says, has such a duty fallen upon his shoulders.

Hon. Bartlett Tripp.

Judge Tripp was entertained at lunch on Thursday by Special Agent Sewall. Last evening a small dinner party was arranged in his honor by S. M. Ballou.

VESSELS IN PORT.

ARMY AND NAVY.

U. S. S. *Iroquois*, Pond, Hilo, March 19.

NOTICE TO SHIPMASTERS.

U. S. Branch Hydrographic Office, San Francisco, Cal.

By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operate with the Hydrographic Office by recording the meteorological observations suggested by the office, can have forwarded to them at any desired port, and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters which they frequent.

Mariners are requested to report to the office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publication of the pilot charts of the North Pacific.

W. S. HUGHES,

Lieutenant, United States Navy.

The California and Oriental steamship *Belgian King* was to have sailed for Honolulu from Yokohama July 27, which will make her due at this port on or about August 11. She will port from here to San Diego, via San Francisco.

PASSENGERS.

Arrived.

From Kapa, per stmr. *James Makee*, July 28.—Mrs. Kakina and 12 deck.

From Kau, Kona, Maialaia, Lahaina and Molokai, per stmr. *Mauna Loa*, July 28.—L. Chong, S. W. Spencer, Mrs. M. K. Bivens, H. Graham, Miss Phillips, W. Mahuka, Y. Kelsamano, E. Mitchell, Dr. Yule, W. K. Mohakou, D. W. Makohou, D. P. Namanu, H. Smith, W. J. Kane and wife, A. J. Gockburn and wife, W. R. Castle, J. K. Naha, Mrs. Shono, Miss Shono, Miss Bockel, W. C. Sahl, On Tai, Mrs. Hitchcock, M. Kelli, Mrs. H. Alexander, C. H. Smith, Sisters Antonio, Ireni, Bonaventura, Flaviana, Master Kanahaleka, A. C. Bickmore, C. C. Langill, H. L. Morehouse, A. Dreier, wife and 4 children, W. H. Thompson, W. Glenn and 72 deck.

From San Francisco, per sch. *Mary E. Foster*, July 27.—O. Knox, A. S. Armstrong.

From Yokohama, per stmr. *Hongkong Maru*, July 28.—For San Francisco—R. Bilas, A. V. Chelovich, Dr. J. Fryer, Mrs. J. Fryer, E. Halgh, G. A. Inketter, Bruno Knochenhauer, J. Krause, W. G. McCullough, G. Nakagawa, K. Oka, Mrs. S. Rihort, M. D. A. G. Rowland, H. Stett, E. W. Tompkins, Y. Teukamoto, Mrs. L. Wilkins, G. Warner, E. Wolfkoff.

From Hawaii and Maui, per stmr. *Kinau*, July 29.—Volcano—Senator A. P. Jones, George F. Jones, Miss Jones, Miss Martin, Thomas Rickard and wife, Miss A. Hartnagle, Miss N. H. Grisvold, W. Del Mar, Miss O. Paleki, Miss May Laughlin, J. S. Edwards, Miss E. P. Chamberlain, Mrs. Willing, Miss Thatcher, Mrs. F. Kruger, three children and maid, Edgar Wood and wife, A. H. Brown, S. Kuby, Howard Hitchcock, J. S. McCandless, Miss E. G. Cartwright, Miss A. Hartnagle, Miss C. D. Castle, H. E. Rolfe and wife, A. L. Rolfe, S. N. Castle, Hon. W. Hayward, L. L. McCandless, J. S. Martin, C. Weatherwax, C. Banco, Miss Leslie Wight, W. McCuskey, C. W. Booth, George Waipa, J. W. Mason, G. F. Affonso, wife and child, Miss A. Shaw, L. Hookano, W. Hookano, Miss H. Hookano, K. Lani, K. Hahane, K. Puenen, Ah Sing, D. Konaalele, Miss May Kamekaha, K. Ione, Pall Kikea, C. E. King, Miss Ella Wight, W. H. Stone, J. A. McCandless, P. McLane, J. H. Schulters, Wm. Anderson, J. Wright, C. E. Eagan, Prof. C. H. Hitchcock and wife, Miss M. Hitchcock, G. Schuman, F. S. Dodge, E. Page, C. M. Curtis, E. Bunting, Miss H. Edwards, Miss E. G. Munson, Mrs. M. Brazil, J. M. Riggs, Miss G. Whiteman, Henry Vierra, Mrs. C. Hoffman, Miss F. Kelsey, F. Lowrey, F. Jacobs, wife and child, H. Dillingham, E. O. Hall, C. F. Alexander, R. B. Mullen, Le Munyon, P. Deck, T. T. Phillips, Mrs. S. K. Pua and child, Miss M. Campbell, Henry Vida, Mrs. E. Naanao, F. C. Schemstein, A. D. McBryde and bride, Mrs. C. K. Stillman, Miss C. Wood, E. D. Tenney, C. M. Cooke, T. H. MacDonald, J. K. Hookano, Miss Kuhlman, Mrs. G. Hons, W. F. C. Hason, M. W. Bergan, Dr. T. E. Wetzel, L. Kupau, L. Tahoe, Mrs. Kanaha, Geo. Wright, C. H. Everett, Miss Grisi, and 91 deck.

From Makaweli, per stmr. *Kauai*, July 29.—Mrs. Mary Allau, Mrs. Mary Kamekono, Mrs. Paki Kapahu and 6 deck.

From Nawiliwili, per stmr. *Mikahala*, July 30.—D. A. Ray, C. M. Cooke, Jr., C. D. Lukin, S. H. Comstock, H. Rice, P. Higgins, S. B. Veigel, Mrs. Merriweather, W. Beifeld, J. H. Filds, George Allen and wife, Mrs. H. Harbart, Mrs. R. Waialeale, J. Leverson, A. K. Kwal, Mrs. W. H. Rice, Mrs. C. Christian and child, Mrs. J. Sherman, Mrs. Le Yanway, Sister Albertina, Miss N. B. Forsyth, Miss E. Batchelor, Miss E. Christian, Miss Rice, Miss P. Malina, Miss L. Kopa, Mrs. Keam, Mrs. Chapin and children, H. Kapu, and 42 deck.

From Waima, per stmr. *Waialeale*, July 30.—H. P. Faye and 2 deck.

From Maui ports, per stmr. *Claudine*, July 30.—J. N. S. Williams, H. P. Baldwin, R. T. Wilbur and wife, Mrs. H. J. Austin, Miss Ward, K. S. Gjerdrum, Dr. R. L. Moore, Mrs. A. K. Filds, R. R. Berg, L. Joseph, Mrs. Makulua, Miss Previer, Miss A. Ahlo, Mrs. A. Ahlo, A. N. Kopolka, F. E. Neumann, W. H. Cornwell, W. E. T. Neumann, L. M. Vettesen, A. Kanailili, G. B. Curtis, L. M. Gelat, H. H. Departed.

For Honokaa, per stmr. *Iwalani*, July 28.—H. W. Kinney, A. Haneburg and wife, Mrs. Massie.

BORN.

PAIAlNA—At the Maternity Home in this city, July 28, 1899, to the wife of David Paialna, a daughter.

M'CONKEY—At Paia, Maui, July 25, to the wife of Dr. W. F. McConkey, a daughter.

VETLESEN—In Lahaina, Maui, Saturday, July 29, to the wife of L. M. Vettesen of Lanai, a son.

MURDOCH—On Saturday, July 29, 1899, at Ewa plantation, to the wife of D. B. Murdoch, a daughter.

The following island vessels sail today: Stmr. *Claudine*, Cameron, for Maui ports, 5 p. m.; stmr. *Kinau*, Freeman, for Hilo, Lahaina and way ports, 12 m.; sch. *Ka Mol*, for Paulilo; sch. *Moi Wahine*, for Hanalei; sch. *Waialeale*, Moser, for Hanalei and Kailua; stmr. *Kauai*, Bruhn, for Lahaina and Kaaupali, 4 p. m.; stmr. *Mauna Loa*, Simerson, for Lahaina, Maialaia, Kona and Kau, 10 a. m.; stmr. *W. G. Hall*, Thompson, for Nawiliwili, Hanalei, Ahualo, Koloa, Elele and Hanalei, 5 p. m.; stmr. *Waialeale*, Green, for Kapa, 4 p. m.

WATER AND WIND.

Australia tomorrow.

Kolon Sugar Mill finishes grinding next Wednesday.

The ship *Reaper* was discharging coal at Kahului last Saturday.

The large crane to hold the excavating dipper of the new Alakea street dredger was hoisted into position yesterday.

The Canadian-Australian liners are due this week—the *Mowera* on Thursday from Sydney, and the *Aorangi* on Friday from Victoria.

Chief Engineer Donnelly of the *Mauna Loa* reports that steamer's machinery now in first-class order and it is no trouble now to make thirteen knots.

The steamer *Kinau*, with over 200 passengers on board from Hawaii ports, arrived last Saturday night. It was the largest list of passengers ever taken from Hilo at one time.

The steamer *Mikahala* went on the marine railway yesterday for a cleaning and scraping and will come off tonight and sail for Makaweli, Waima and Kekaha tomorrow at 5 p. m.

The ship *George Curtis* is out in the stream, having completed her cargo of sugar for San Francisco. She expects to sail tomorrow and will henceforth be in the Coast-Island trade.

All mails for the Coast last Saturday were carried by the steamer *Hongkong Maru*, which will, it is expected, arrive in San Francisco many hours ahead of the United States ship *Badger*.

Captain Thompson of the *Mikahala* takes command of the *W. G. Hall* today, Captain Pederson of the *Noeau* succeeding him. Captain Wyman, formerly of the *Niihau*, will take charge of the *Noeau*.

The steamer *Niihau* is being overhauled at Fishmarket wharf. Carpenters are busy above and below deck making alterations. The present deckhouse is to be extended some eight feet forward and six staterooms will be built.

The United States cruiser *Badger* sailed for San Francisco at 10 o'clock last Saturday. Upon the arrival of the *Badger* in San Francisco she will take on board the naval reserves of San Francisco for a fortnight's practice cruise. It is probable that Captain Miller of the *Badger* will get a furlough to go home to Liberty, Mo., to visit his family, which he has not seen since the breaking out of the war.

The Matson line has placed an order for a tow-boat to take the place of the steamer *Rover*, now being used for the handling of vessels coming to this harbor. The great increase in the number and size of vessels coming to this port requires the presence of a boat with greater power than the one now in service, and the new boat will be of size enough to handle any ship coming to the islands. The new steamer is expected to arrive within the next two or three months.—Hilo Tribune.

District Inspector W. F. Drake of the Customs Service severed his connection with that department yesterday and will take a position in a prominent hardware house on Port street. Mr. Drake has been in the Customs some two years and will be missed by the many business men who have had to deal with him during that time. He has always proven courteous and efficient. He will be succeeded by one of the most popular men on the force, who has been discharging inspector for many years, M. H. Drummond.

METEOROLOGICAL RECORD.
